Dexciss ERP for D2C Leaders

Automate operations, sync sales, and deliver faster — without extra overhead.

Powering D2C Growth with Smarter, Simpler Operations

Dexciss ERP, powered by ERPNext, is built for brands that scale fast and deliver faster. It's a flexible, easy-to-use platform that unifies inventory, orders, dispatches, returns, and customer experience — all in one place.

Beyond just tracking operations, Dexciss ERP empowers your teams to act faster — automate everyday workflows, manage multiple channels, and ensure customers receive the right products, on time, every time.

Mobile-ready, fully customizable, and packed with smart workflows — it helps you stay ahead of demand spikes, product launches, and seasonal peaks without operational chaos.

Smart. Simple. Scalable - That's ERP by Dexciss

- **Standalone Solution** evolved for fast-scaling D2C brands
- **Flexible to Integrate** with your website, marketplaces, and courier systems
- **Fully Customizable** to match your unique operations
- **Cloud-based Access** for secure, anytime-anywhere control
- **Free of Cost Product** — no hidden fees, no license trap

Key Features

that simplify processes and amplify results!

Inventory & Warehouse Management

- Real-time inventory sync across website and marketplaces
- Warehouse management system (WMS) for faster dispatches
- Auto stock alerts and replenishment suggestions
- SKU and variant handling (size, color, bundles)
- Courier integration for auto shipment booking and tracking

Sales & Customer Management

- CRM for lead nurturing and customer engagement
- Multi-channel sales integration (Website, Amazon, Flipkart, etc.)
- Promotion and coupon code management
- Mobile CRM app for easy access on the go

Mobility & User Access

- Mobile-first ERP access for all teams
- Role-based dashboards and permissions
- Search-driven navigation — no training needed

Order & Return Management

- Sales order automation across multiple channels
- Dispatch planning for faster order deliveries
- Seamless returns, exchanges, and refund workflows
- Customer self-service for tracking and return requests

Business Intelligence

- Real-time sales, inventory, and returns dashboards
- Drag-and-drop custom report builder
- Marketplace-wise and product-wise sales analytics

Financial Management

- Financial health dashboard in real-time
- GST automation for easier filings
- Payment collection and reconciliation tracking
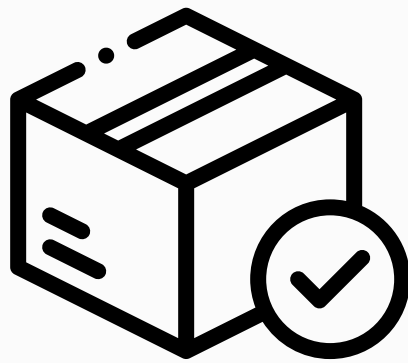

> ## -91%
> Less total cost of ownership as compared to Market Leaders like SAP, ZOHO, Microsoft, Oracle, etc. with **no compromise on features**.
